

GET OUT
THE VOTE

NAIFA's GOTV Has Your Voting Information & Resources

Voting Helps Us Secure Our Future

Did you know that more than 63 million Americans who are eligible to vote aren't even registered? They have no say in electing the people who make the decisions that impact their financial security. As an insurance and financial services professional, I understand that policy decisions affect all of our ability to:

- **Adequately prepare for retirement**
- **Insure ourselves against unexpected losses**
- **Leave a financial legacy for our loved ones**

The National Association of Insurance and Financial Advisors provides resources at gotv4financialsecurity.org to answer all your voting questions and help you get registered.

What Can You Do?

- **Register to vote!**
- Encourage your friends and family members to register. Remember, if you have a child who recently turned 18, they are now eligible to vote but **they have to register**.
- Vote in upcoming elections.
- Learn more about the voting process, candidates for office, how to get registered, and much more at gotv4financialsecurity.org.
